```
let mut record = [0u8; RECORD_BYTES];
record[..4].copy_from_slice(
    &cell.row.to_le_bytes());
record[4..6].copy_from_slice(
    &cell.column.to_le_bytes());
// Two flag bytes occupy positions 6-7.
record[8..].copy_from_slice(&cell.digest);
output.write_all(&record)?;
```
