23 Whitespace can block text overflow

Source

```
<c r="A1" t="inlineStr">
 <is><t>Long heading</t></is>
</c>
<c r="B1" t="s"><v>4</v></c>
<!-- shared string 4 is one space -->
```

=

Guarded result

```
<c r="A1" t="inlineStr">
 <is><t>Long heading</t></is>
</c>
<c r="B1" t="s"><v>4</v></c>
```

Default leaves optional whitespace-value deletion disabled. A space is a value and can stop neighboring text overflow.

Unsafe shortcut. Removing B1 can expose text in the next column or affect dependencies and row sizing.

Abbreviated XML. Style IDs are local.
