32 Sparse promotion reuses a font-only XF

Source

```
  <row r="1" ht="9"
   customHeight="1"
  >
   <c r="A1" s="2">...</c>
-  <c r="B1" s="2"/>
-  <c r="C1" s="2"/>
-  <c r="D1" s="2"/>
  </row>
```

Guarded result

```
  <row r="1" ht="9"
   customHeight="1"
+  s="1" customFormat="1"
  >
   <c r="A1" s="2">...</c>
  </row>
```

All absent positions already inherit a compatible font. Promote to existing font-only XF 1 and retain A1's richer XF 2.

Unsafe shortcut. Copying XF 2 wholesale would leak its alignment or other components into the row. A different inherited gap font blocks sparse promotion.

Abbreviated XML. Style IDs are local.
